OBJECTIVE

Aspiring frontend developer with strong problem-solving skills in Java and DSA, currently gaining hands-on experience in MERN stack projects. Passionate about building scalable, user-centric web applications. Seeking a challenging internship/full-time role to contribute to impactful products while growing into a world-class software engineer.

EDUCATION

Bachelor of Engineering in Computer Science, Keshav Memorial Engineering College — 2022 - 2026
Relevant Coursework: Data Structures & Algorithms, Operating Systems, DBMS, CN, ML, AI, Web Development, Software Engineering

Intermediate, Narayana Junior College — 2020 - 2022

Secondary Schooling, St Joseph's Public School — 2010 - 2020

SKILLS

Programming	Java, JavaScript, Python
Web Development	HTML, CSS, React.js, Next.js, Node.js, Express.js, Git
Data Tools	SQL, Data Analysis, Data Modeling, Spreadsheets, Tableau
AI/ML (Basic)	Basics of Machine Learning, Linear Regression, Data Classification
Core CS Knowledge	DSA, OOPs, OS, DBMS, CN, Software Engineering
Tools & Platforms	GitHub, Postman, VS Code, Firebase, Vercel, Render
Soft Skills	Problem-Solving, Team Collaboration, Communication, Adaptability, Leadership

PROJECTS

- **Movie Watchlist (MERN Stack)** — Built a full-stack movie tracking application using React, Node.js, Express, and MongoDB. Implemented a custom backend API with Express to persist user watchlists and integrated the OMDb API for real-time movie data search. Developed a responsive UI using React Hooks and deployed the frontend on Vercel and the backend on Render. Included secure RESTful routing and modular code structure for scalability. (Live Demo)

- **Unwire – Mental Health LLM Screening Tool (Web + LLM)** — Developed an LLM-based early screening tool for mental health assessment using BERT to analyze user input and detect potential issues. Delivered personalized recommendations based on NLP analysis, improving accessibility to mental health resources. Built a responsive frontend with React and integrated a secure backend for real-time data processing.

ACHIEVEMENTS & CERTIFICATIONS

- **Deloitte Data Analytics Job Simulation** – Forage (July 2025) — Click to view certificate
  - Completed a job simulation involving data analysis and forensic technology
  - Created a data dashboard using Tableau
  - Used Excel to classify data and draw business conclusions

- AI for Beginners – HP-Life — Click to view certificate

EXTRA-CURRICULAR ACTIVITIES

- Regularly solve Data Structures and Algorithms problems on LeetCode to strengthen problem-solving skills and prepare for technical interviews.

- Actively engage in group discussions, presentations, and peer mentoring sessions to develop strong verbal communication and public speaking skills.
